# My Country - Afghanistan

Hi... it's me Mohammad Ali. I am from Uruzgan, in Afghanistan. I was born in the small village of Ghizoo, named by Mohammad Khoja. In my village, there is a fresh river which comes from the mountains. I love my village - I can't forget the place where I was born...

Ghizoo is full of mountains ... the river also comes down from the mountains - it divides Ghizoo into two parts. The people of my village are very good - they are very innocent people and most of them are farmers. All day they are working in the fields. They are very kind to all, because they are Hazara people...

...but now there are very bad conditions because of the Taliban. They destroy my village... my country and... I have lost every thing that I love in Afghanistan... I am very thankful for the Australian army because they fight against the Taliban. In my province of Uruzgan troops try to save Hazara people!  
**THANKS AUSTRALIA...**
